## SW108

## EAE KNX SWICTH ACTUATOR

## General Specifications

- Possesses 8 independent channels that could be configured by means of ETS3/ETS4/ETS5.
- In addition to switching fluorescent lamps according to EN 60669 standard it can also perform the switching of resistive and inductive loads. (16A-20AX/C-Load).

Each channel can be controlled manually on the device.

- The following functions can be defined separately for each channel:
- Stair function
- External logic
- Internal logic
- Priority function
- Threshold function
- Transaction time
- Sweeping function.
- Does not need an external power supply
- The current on/off situations can be arranged by means of ETS parameters.
